 Drop by: the green building next to the main Band Office.

DESCRIPTION:

The roads highlighted in purple are existing old roads that are currently quad trails. They have been selected as fuel breaks to protect the Canim Lake Band from wildfire. The roads will be clearcut for a total fire guard width of between 70 and 125 meters. In the future, selective logging off of these roads will be employed to further reduce the risk of catastrophic wildfire. It is likely that there will be gates or other road closures associated with this road permit.

Further wildfire prevention work regarding the 200 and 201 roads is also being planned at this time.
