## **Appendix 3 – DHM Summary of Recreation Sites and Trails**

Proj No.	Project Name	Туре	Objectives
6897	70 Mile Green Lake Trail	Trail	2003/08/05 The objective is to manage the 70 Mile Green Lake Recreation Trail for a mainly semi-primitive recreation experience. The primary use of the trail will be for snowmobiling during the winter. Other potential uses are mountain biking and horseback riding in other seasons. The trail head is accessed via two-wheel drive public road.
2972	99 Mile Ski Trails	Trail	1999/01/07 - The objectives are to manage the 99 Mile recreation site for a semi primitive recreation experience. Opportunities for cross country skiing and cross country running will be provided at the site. Gravel road access for two wheel drive vehicles will be maintained to the trail head.
2975	99 Mile Snowmobile Trails	Trail	99/01/07 The objectives are to manage the 99 Mile Snowmobile trails for a semi primitive recreation experience. Opportunities for snowmobiling and mountain biking will be provided at the site. Gravel road access for two wheel drive vehicles will be maintained to the trail head.
6192	Babe Lake	Site	The objectives are to manage the Babe Lake Recreation site for a semi primitive recreation experience. The lakeshore line will be maintained. Opportunities for fishing and picnicking will be provided at the site. Gravel road access for two wheel drive vehicles will be maintained to the trailhead.
6451	Begbie Trail	Trail	1996/11/01 The objective is to manage Begbie Trail Recreation Trail for a roaded recreational experience. Trail will be over existing roads and trails with no timber removal. The trail will provide opportunities for snow sport activities, nature activities, summer land sport activities, and viewing activities. Access to the trail will be 2-wheel drive (off Highway 97) and 4X4 access off 99 Mile ski and snowmobile road.
2993	Boar Lake	Site	99/01/07 The objectives are to manage the Boar Lake recreation site for a roaded recreation experience. The lakeshore line will be maintained. Opportunities for fishing, camping, and picnicking will be provided at the site. Gravel road access will be maintained for two wheel drive vehicles from May to early October.
5948	Bog Lake	Site	99/01/07 The objectives are to manage the Bog Lake recreation site for a roaded recreation experience. The lakeshore line will be maintained. Opportunities for fishing and picnicking will be provided at the site. If future use increases; camping will be provided. Gravel road access to the site will be maintained for two wheel drive vehicles from May to early October.
2505	Bonaparte Lake	Site	99/01/31 The objectives are to manage the Bonaparte Lake Recreation Site for a roaded recreation experience. A boat launching area is available at this site. Opportunities for picnicking, camping, and fishing will be provided at the site. Gravel road access for two wheel drive to the site will be maintained from May to early October.
2981	Bonaparte River	Site	99/01/07 The objectives are to manage the Bonaparte River recreation site for a roaded recreation experience. Opportunities for fishing, camping and picnicking will be provided at the site. Gravel road access will be maintained for two wheel drive vehicles from May to early October.
2699	Bowers Lake	Site	99/01/07 The objectives are to manage the Bowers Lake recreation site for a semi primitive roaded recreation experience. The lakeshore line will be maintained. Opportunities for fishing, camping and picnicking will be provided at the site. Road access to the site for four wheel drive vehicles will be maintained from May to early October.
6907	Brown Creek Trail	Trail	2003/08/05 The objective is to manage the Brown Creek Recreation Trail for a semi- primitive recreation experience. The primary use of the trail will be for snowmobiling during the winter. Other potential uses are mountain biking and horseback riding in other seasons. The trailhead commences from a two-wheel drive FSR road. Snow removal is not guaranteed to the trailhead in the winter.
